

Saudi NEONATOLOGY SOCIETY . CERTIFICATE WORKSHOP

From Risk to Recognition

Early CP Detection with HINE

Certificate of Competency in Basic HINE Administration & Scoring

12 - 14 Sep 2026

Novotel Riyadh Al Anoud Hotel

هـدفي الأول أن تكون بلادنا نموذجاً ناجحاً ورائداً في العالم
على كافة الأصعدة، وسأعمل معكم على تحقيق ذلك
خادم الحرمين الشريفين
الملك سلمان بن عبد العزيز آل سعود

همة السعوديين مثل جبل طويق، ولن تنكسر إلا إذا انهد
هذا الجبل وتساوى بالأرض
ولي العهد الأمير محمد بن سلمان آل سعود

Purpose of the Workshop

1. Develop Clinical Competency

- Learn basic HINE administration and scoring for early cerebral palsy identification.

2. Strengthen Understanding of Early Detection Tools

- Gain knowledge of the early detection triad:
HINE (Hammersmith Infant Neurological Examination)
- GMA (General Movements Assessment)
 - Neonatal neuroimaging / TEA-MRI

3. Enhance Family-Centred Communication Skills

- Apply strength-based, family-centred approaches.
- Use the F-Words framework and WHO ICF to guide functional goal-setting and communication.

4. Translate Knowledge into Locally Adaptable Practices

- Develop early intervention and referral pathways inspired by the Sunnybrook NFUC framework.
- Integrate early CP detection into post-NICU follow-up programs.

5. Promote Practical and Applied Learning

- Gain hands-on experience through simulation-based sessions and case-based learning.
 - Apply clinical reasoning: observation → assessment → intervention planning.

THREE-DAY INTENSIVE PROGRAM

Workshop Program

12–14 September 2026 · Novotel Riyadh Al Anoud Hotel, Riyadh

Day 1

08:00

Registration & Welcome

08:30

Neonatal Outcomes & 2017
Guidelines

10:45

Neuroimaging & TEA-MRI

13:00

Overview of GMA

14:30

Integrating GMA & HINE

Day 2

08:00

Recap & Reflections

08:30

Introduction to HINE

10:45

HINE Administration — Part 1

13:00

HINE Scoring & Interpretation —
Part 2

14:30

Applied Case Learning

Day 3

08:00

Recap & Preparation

08:30

Case 1

10:45

Case 2

13:15

Case 3

15:00

Implementation & QI Panel

15:45

Closing & Certification

Built on a strength-based, family-centred philosophy recognising every infant's potential early, so the right support reaches each child and family, sooner.

WHAT YOU WILL GAIN

- **Confident HINE administration and scoring** — so each infant's needs are recognised at the earliest possible point.
- **Fluency with the early-recognition triad** — HINE, GMA, and neonatal neuroimaging / TEA-MRI — opening the door to timely support.
- **Strength-based, family-centred communication** using the F-Words for child development and the WHO-ICF.
- **Pathways that connect every family to early intervention**, building on the Sunnybrook NFUC model.
- **Hands-on, applied learning** through simulation and case-based reasoning — from observation to action.

SPEAKERS

Dr. Rudaina Banihani
Course Director

Associate Professor, Neonatology & Developmental Pediatrics,
University of Toronto; Director, Sunnybrook Neonatal Follow-
Up Clinic.

Dr. Raniah Aljeaid
Course Co-Lead

Neonatologist & Neonatal Follow-Up Consultant,
King Fahad Armed Forces Hospital.

Maureen Luther, PT

Therapy Lead · National Facilitator in Canada
Pediatric Physiotherapist, Sunnybrook Neonatal Follow-Up
Clinic.

Dr. Ghada AlWahbi
Neonatologist & Neonatal Follow-Up Consultant,
National Guard Hospital.

Speakers & Faculty

From Risk to Recognition — Early CP Detection with HINE

Dr. Rudaina Banihani

Course Director

Associate Professor, Neonatology & Developmental Pediatrics, University of Toronto; Director, Sunnybrook Neonatal Follow-Up Clinic.

Dr. Raniah Aljeaid

Course Co-Lead

Neonatologist & Neonatal Follow-Up Consultant, Division of Neonatology, Department of Pediatrics, King Fahad Armed Forces Hospital.

Maureen Luther, PT

Therapy Lead · International Facilitator

Pediatric Physiotherapist, Sunnybrook Neonatal Follow-Up Clinic.

Dr. Ghada AlWahbi

Workshop Faculty

Neonatologist & Neonatal Follow-Up Consultant, National Guard Hospital.

Raneyn adel sheekhoon

Workshop Faculty

King Fahd armed forces hospital
Pediatric Physical therapy

ADDITIONAL FACULTY

Raneyn Sheekhon, PT — Workshop Faculty · Physiotherapist, King Fahad Armed Forces Hospital.

Freda Vane, OT — Workshop Faculty · Occupational Therapist, Sunnybrook Neonatal Follow-Up Clinic.
